

# Green Lane's Wonderful Wednesday Afternoons

## 24<sup>th</sup> Feb **REDUCE, REUSE AND RECYCLE - IMPROVING OUR ENVIRONMENT**

Find out about Eco issues, where can you save energy in your home? Go for a walk and do a safe litter pick with an adult.

Can you help us achieve Green Flag status by completing one of the activities outlined in the attached word document? Improve the environment by planting some seeds and make your own recycled plant pot. Ideas attached.

## 3<sup>rd</sup> March **Musical madness**

Sing, dance, rap, write some song lyrics or play an instrument, make your own instrument.

## 10<sup>th</sup> March **Construction**

Build a structure - use Lego, Minecraft, cardboard. Research a famous architect or building. Look at the STEM website for ideas such as spaghetti towers, bridges, making structures out of chocolate! Don't forget you could make a free standing structure from packaging, cushions, playing cards, pencils – as long as it stands on its own it is a structure.
